INFORMATION

The Orb Air carabiner offers a reliable and durable solution for professionals in rope access and work at heights. Constructed from high-quality aluminum alloy, it delivers an excellent balance of strength and lightweight performance.

Available with screw-lock, two-lock, and three-lock mechanisms, and a variety of gate options, it allows users to choose the most suitable configuration depending on their specific type of work and safety requirements.

Trusted by experts, the Orb Air carabiner combines functionality and strength with ease of use, giving you confidence during every climb or maneuver. Its silver/gray body with a red/blue locking sleeve improves visibility and quick identification during use, making it a reliable choice for safety-critical and demanding working environments.

| SKU | Gate mechanism | Weight | | Minimum breaking strength | | | Material | Colour | Certification |
|--------|----------------|--------|------|---------------------------|-------------------|------------------|----------------|-------------------------|-----------------------|
| | | (g) | (oz) | (Major Axis) ⬇ | (Minor Axis) ⬇ | (Gate Open) ⤴ | | Body/Locking Sleeve | |
| 1SC201 | Screw-lock | 75 | 2.64 | 25kN | 8kN | 7kN | Aluminum Alloy | Gray/Blue Silver/Red | CE EN 362 EN 12275 |
| 1SC202 | Two-lock | 80 | 2.82 | | | | | | |
| 1SC203 | Three-lock | 83 | 2.92 | | | | | | |
